

**GEMÜ**

**Ball valves  
in metal and plastic**

#### Wide-ranging application in industrial processes

GEMÜ products are working around the globe in industrial plant and machinery sectors, the automotive industry, water and waste water treatment, power stations, steel works, the paper industry, the petrochemical industry, the basic and fine chemical industries, mining and metal extraction, the sugar industry and in many other industrial areas. No other area subjects valve bodies to such a varied range of stresses as those found in industrial applications. Which is why GEMÜ valve designs are based on the expertise gained during decades of application experience. The specialized production processes and the precise geometric suitability of the material transitions make GEMÜ valve bodies a lasting, highly efficient application solution.

#### Customized solutions for your project business

GEMÜ provides the optimal solution from a single source. As a system supplier of isolation, actuator and control technology, we can respond very flexibly to your individual project-specific needs. Our worldwide sales network provides fast reaction times, customer oriented service and a committed project management team.

Seal material	PTFE	PTFE	PTFE	PTFE
Other	2-piece body	3-piece body	3-piece body	3-piece body with top flange EN ISO 5211, additional spindle sealing via O-ring 

\* depending on version and/or operating parameters

## Features:

- Good flow capability
- Suitable for clean, non-particulate media (inert or corrosive and gaseous or liquid), which have no negative impact on the physical and chemical properties of the body and seal material
- Suitable for high operating pressures and temperatures

## Application examples:

- Water supply/treatment
- Electroplating
- Swimming pool processes
- Filter systems
- Operating media supply
- Lubricating and cooling circuits
- Tank construction
- Heating installations, hot water systems, heat exchangers
- General industrial applications

\* depending on version and/or operating parameters

## Features:

- Good flow capability
- All media wetted parts and actuator housing are made of plastic
- Suitable for clean, non-particulate media (inert or corrosive and gaseous or liquid), which have no negative impact on the physical and chemical properties of the body and seal material
- Maximum permissible operating temperature 120°C, dependent on operating pressure and body material

## Application examples:

- Water supply/treatment
- Electroplating
- Swimming pool processes
- General industrial applications
- Tank construction

# Positioners and process controllers

Electro-pneumatic positioners and process controllers for pneumatically operated quarter turn valves

For control requirements all pneumatically operated GEMÜ ball valves can be fitted with positioners and process controllers:

- GEMÜ 1435 ePos
- GEMÜ 1436 cPos

Function / Features		GEMÜ 1435 ePos	GEMÜ 1436 cPos
Controller type	Positioner	•	•
	Process controller		•
Operation	Local display / keypad	•	•
	Status display	•	•
	Web browser user		•
	Fieldbus option (Profibus DP, Device Net)		•
Housing	Plastic		•
	Aluminium	•	
Functions	Automatic initialisation (speed-AP)	•	•
	Alarm / error outputs	•	•
	Min/max positions adjustable	•	•
Mounting	Direct mounting to quarter turn actuators	•	•
	Remote mounting to quarter turn actuators	•	•
Control function of valve actuator	Control function 1, normally closed (NC)	•	•
	Control function 2, normally open (NO)	•	•
	Control function 3, double acting (DA)	•	•
Air output		50 NI/min. 90 NI/min.*	150 NI/min. 200 NI/min. 300 NI/min.*

\* only control function 1, Normally closed (NC) and control function 2, Normally open (NO)

# Electrical position indicators

## Electrical position indicators for manually and pneumatically operated ball valves

Various electrical position indicators are available for ball valves. These devices detect the valve position in any installation position without play and are tension-free. The position indicators can be quickly and easily assembled and are safe and uncomplicated to handle.
